-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.

If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.

If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.

Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).

Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: In claim 1, line 2, the term "leangth" should be changed to --length-- . Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, as to the following:

In claim 1, line 3, there is no antecedent basis for "the body".

In each of claims 2 through 6, there is no antecedent basis for "The clip".

In claim 2, line 1, there is no antecedent basis for "the body of material".

In claim 2, line 2, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d). Furthermore, "etc." is undefined.

In claim 3, line 1, there is no antecedent basis for "the body" and "the fastener".

In claim 4, there is no antecedent basis for: "the base and face", "the fastener", "the bottom layer", "the wrap" and "the body".

In claim 5, there is no antecedent basis for "the use", "the base", and "the face".

In claim 6, there is no antecedent basis for "the use", "the base", "the face", and "the fastener".

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-6, so far as definite, are rejected under 35 U.S.C. 102(b) as being anticipated by Cohen (U.S. Patent No. 252,430). Cohen ('430) discloses a fastening device composed of a "ridged" moldable material (metal; line 18); a base (shorter of *portions b* shown in Fig 1) and a face (longer of *portions b*) of the device are offset, the base is extended past the face; vertical raised rails (raised portions of the corrugations shown the Figs. 2 and 3) on the inside of the base and the inside of the face; vertical depressions (recessed portions of the corrugations shown the Figs. 2 and 3) on the inside of the base and the face of the device.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
